

TIFFSURFER

Easy-to-Use Plug-In Turns Your Browser into a Complete Document Management System

Images of documents are often captured and stored in Tiff formats that require proprietary viewers to display. Most browsers offer little or no support for the Tiff Group/4 images, JPEG 2000 images or many other formats.

TiffSurfer is an affordable, easy-to-use plug-in that not only displays Tiff images but allows use of your Internet browser to preview these images by scanning through thumbnails or groups of pages. This powerful tool provides image viewing, manipulation, annotation, redaction, stamping, cleaning, printing, PDF generation, reformatting, barcode recognition, copy to clipboard, text recognition and output. It can even scan and capture new pages using most scanners.

You can easily embed images into an HTML file and then set up files to display groups of images whether they are local or on the Internet, automatically sizing them for optimal usage. TiffSurfer can also be customized during installation to lock out certain features such as image saving and printing.

TiffSurfer also allows you to extract text from images using our advanced multilingual OCR reader. Simply select an area of the page or the whole page and click on the OCR button. In seconds, the selected area will be converted to a text, RTF, CSV, HTML or a searchable PDF file.

FEATURES/BENEFITS:

- ◆ Image Viewing allows most standard browsers to display standard TIFF and other document images alongside or in conjunction with HTML pages
- ◆ Image Manipulation: rotation, zooming and scaling allows easy viewing even if the original is scanned in landscape or upside down
- ◆ Image Enhancement Cleaning improves the quality of the image and can reduce file sizes
- ◆ Annotations and Redactions: allows for marking up the document with annotation storage as an embedded tag or external file
- ◆ Print output images with markups
- ◆ Barcode recognition supporting most barcode types
- ◆ Text recognition of image files on the Internet or Intranet allows conversion to a searchable PDF file

TIFFSURFER

Easy-to-Use Plug-In Turns Your Browser into a Complete Document Management System

TIFFSURFER BASIC

Image viewing single pages or entire directories

- ◆ Single and multi-page Tiffs
- ◆ Multiple different TIFF formats: Group/3, Group/4, Modified Huffman, JPEG, TIF 5.0 spec JPEG, LZW, Packbits

Other formats:

- ◆ JPEG, JPEG2000, Gif, Bitmap, Stellant/Optika; CALS, PCX and Portable Bitmaps (PBM, PGM, PPM)
- ◆ Custom LST files allow viewing of images from URL's, LAN or local PC with wild carding

OUTPUT

- ◆ Image replacement or new image saving and printing
- ◆ Batch save with new formats
- ◆ Conversion to non-searchable PDF image

IMAGE CONTROL

- ◆ Multiple page Tiff creation
- ◆ Magnifier and navigator
- ◆ Multiple thumbnail views (size, whole page, inline window)
- ◆ Image rotation
- ◆ Custom zooming and scaling
- ◆ Copy To clipboard, hand Panning, selection, annotation and magnifier cursors
- ◆ **Annotations:** rectangle, redaction, highlight, stamps, text and line saved as embedded or external files

OTHER

- ◆ TWAIN Scanning
- ◆ Customizable colors for backgrounds and annotations
- ◆ Barcode recognition: Codabar, UPC, UPC-E, EAN-8, EAN-13, Code 39, Code 39 Extended, 2 of 5, 2 of NHT, Interleaved 2 of 5, Code 93, Code 128, Postnet
- ◆ Large Image support
- ◆ Enable/Disable annotations and image processing
- ◆ Customizable configuration

TIFFSURFER ADVANCED

All features of Basic Version plus

- ◆ Image cleaning: deskew and despeckle for complete pages or selected areas
- ◆ Image rotation to any degree for complete pages or selected areas
- ◆ Image reformat and resizing
- ◆ Color and grayscale bit depth change

TIFFSURFER COMPLETE

All features of Advanced Version plus OCR

- ◆ Standard languages: English (default), French, German, Portuguese, Spanish, Italian
- ◆ 41 additional languages available
- ◆ Full text OCR from a zone, page, image, LST file or directory
- ◆ Convert images to searchable PDFs with hidden text
- ◆ Save OCR results as HTML, RTF, CSV or TXT

BROWSERS SUPPORTED

- ◆ Internet Explorer 4.0 and higher
- ◆ Netscape 4.x and 7.x
- ◆ FireFox 1.0

OPERATING SYSTEMS

Windows 98, ME, 2000, XP
