

Are you still using DOS based or outdated Point of Sale (POS) software that does not adequately handle Space Rentals to vendors? Is your POS software not flexible enough to switch between Retail, Wholesale and other sales types during the check out process without re-entering the same information again? Is your current software not networked and requires you to consolidate data from multiple POS terminals using floppies? Do you spend lot of time at the end of the day and end of the month reconciling sales information and generating vendor sales reports?

If you find yourself saying 'Yes' to any one or more of the above questions, you are on the right track in obtaining a solution to your POS and Space Rentals problems. Read on ...

E-SoftSys, committed to understanding the needs of the customers and evolve cost-effective solutions, has come up with Premier Management Software for Antique Malls – **AntiqueSoft**, to address the numerous issues faced by large and mid-sized antique malls. **AntiqueSoft** is designed to automate both your Point of Sale and Space Rental processes and provide a comprehensive solution for efficient and effective management of sales and space rental activities.

## Features

- ◆ Highly flexible POS system with multiple sales types including Retail, Wholesale, Shipped, Pending and Return.
- ◆ Easy management and tracking of Layaways & Consignments.
- ◆ Maintain customer information.
- ◆ Special discounts by vendor for specific days or by range of dates.
- ◆ Comprehensive space rental function to arrange, identify the location and rent spaces to vendors using a dynamic color-coded graphical layout.
- ◆ State of the art technologies such as online credit card processing, cash drawer interface, driver's license swiping etc.
- ◆ Management reports including vendor sales reports, sales tax reports for taxable and non taxable sales, commission reports, consignment reports, layaway reports etc.
- ◆ Optional web interface for vendors and management to check the daily sales as well as access various reports online from the convenience of their home.

## Benefits

- ◆ True multi-user and networked system eliminates the need to consolidate data manually from multiple POS terminals.
- ◆ Integrated rent control and POS functionality in a single system.
- ◆ Audit trail maintained for all transactions leading to improved security.
- ◆ Ability to enter pending sales and complete the sale from any workstation.
- ◆ Provides better, overall control by quickly providing the latest information on invoices, sales, spaces, vendors, customers and products as well as quick access to historical data.
- ◆ AntiqueSoft is built on stable and reliable Microsoft technology by E-SoftSys, a Microsoft Gold Certified Partner.
- ◆ Easy reconciliation of payments collected at the end of the day either by workstation or by user.
- ◆ Improve customer service and vendor service by accurately tracking customer and vendor information.
- ◆ All AntiqueSoft reports can be exported to excel, word etc.

Software Support 7 days a week

## Easy to Navigate - Point of Sale System

The POS interface is central to the AntiqueSoft system and plays a very important role of recording sales transactions and relating sales to spaces and vendors. The Point of Sale system provides options to perform various sales types such as Retail, Wholesale, Shipped, Pending, Return, Void, Layaways and Consignment from a sophisticated and easy to use screen with the option of switching from one sale type to another without re-entering the information.

## Dynamic Graphical Layout

AntiqueSoft supports creation of a graphical layout that replicates the physical layout of the spaces in your antique mall. Spaces and buildings of same type can be quickly created using the copy-paste feature. AntiqueSoft allows renting of spaces from the graphical layout by clicking on the available spaces.

## Receivables and Payables - Month End Process

Month end process produces a comprehensive report on total sale proceeds and automatically calculates the commission on sale proceeds along with rental charges and miscellaneous charges due for the month. If the vendor accepts "Vendor Payout" option, the system automatically subtracts the market's share of balance receivable and pays out the balance of sale proceeds to the vendor.

## Web Inquiry (Optional Web Interface)

The optional **Web Inquiry** module provides the antique mall vendors online access to their daily sales information. **Web Inquiry** also provides the antique mall owners and managers remote online access to day end and month end reports from any part of the globe.

## Services

E-SoftSys provides remote as well as onsite installation, training and implementation services and website design, development and search engine optimization services. Our **Vendor Home Page** module allows your vendors to sell their products on antique mall's website.
